# Carbon farming and carbon accounting

This workshop will provide farmers and farm advisors with a carbon farming update and overview including information on emissions, carbon storage, carbon neutral farming and financial opportunities through carbon offsets. The afternoon session includes training by TIA on farm carbon calculators – how to identify your farm’s carbon account. **Bring a laptop or tablet** along to get the most out of this session. Information will also be provided about the Tasmanian Government’s Carbon Farming Advice Rebate Pilot Program and the Landcare Action Grants.
